Maryland.

Sir; First I have to tell you that mental telepathy does exist. I know, Here in Sudbury you'll have proof that it is so. There's even a radio program that has change — one day I figured I'll play a little trick I got the line and told him how he was doing the station was bombard with call as how was I for fortune reading. dream victim that they can't find — lost article — lost and run away drivers. etc. For the killer of Kennedy you'd only believe it if I were under the truth serum 6 shots were fired 2 hit — I miss the last shot got Connely in the back. A friend of mine was with me in the house I told her — and also name the killer.
